NB Dental
IMPLANT & DENTAL CLINIC

Oral Surgery
Implant Dentistry
IV sedation
CBCT/OPG imaging
Digital scanning

- Current guidelines allow IV sedation to be carried out in the primary care setting for ASA 1 and 2 patients. All other patients need to be referred to a secondary care setting.
- IV sedation is suitable for those over 14 years of age.
- Patients will need to be accompanied for the treatment appointment by a responsible adult.
- The first appointment will be an assessment and no treatment will be done at this visit.

Dr Baker has experience in removing impacted 8s, retained roots, fractured roots and simple teeth. With the aid of sedation most procedures can be completed in the dental surgery. Each patient will be assessed, and an appropriate treatment plan devised. We can accept urgent referrals for removal under Local Anesthetic, please phone during working hours.

Please follow NICE guidelines for removal of wisdom teeth.

We request you provide all relevant diagnostics and medical history at the time of referral.

Please provide all relevant radiographs.

We have an OPG and CBCT scanning facility here and are happy to accept referrals for extraoral images.

We are also happy to provide digital scans for your patients, should the need arise. We have a Primescan unit and would be happy to scan your patient and sent the files to yourselves or a laboratory of your choice.

We are pleased to announce NB dental clinic in Alton is now up and running and we can offer referrals for implants and oral surgery is now offering a new referral service.

We are pleased to be able to offer a referral service for Oral surgery, Sedation and Implants thanks to our Dr Baker being here full time.

Dr Baker has gained a wide range of experience working at Newcastle dental hospital and various private practices in the area. He has an interest in Oral surgery and Implants. Dr Baker can offer IV sedation for nervous patients in our modern, newly refurbished surgery.

Dr Baker can offer implant placement and/or restoration, he is more than happy to accept referrals for failing or complex implants that may need more advanced care. The choice is yours as to how involved with the care you wish to be, and we will always ensure your patient returns to yourselves for routine treatment and maintenance.

Speak to our friendly reception team.

Call 0142087756. Referral forms can be downloaded from the website or requested.

We are happy to take electronic referrals.

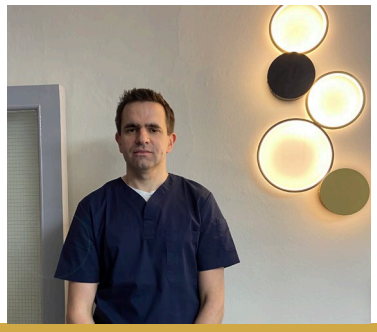
Our Team



Dr Nick Baker BDS, MJDF RCS (Eng), Dip HE/DHDT, GDC No 6491

Originally from Petworth, Nick first qualified as a Dental Hygienist/Therapist from the Royal London Hospital in 2004 working in a variety of settings before continuing his training at Peninsula Dental School, graduating with a BDS in 2012.

Nick is a member of the Royal college of Surgeons, London (MJDF RCS Eng) and has developed an interest in minor oral surgery. This stems from his time at Newcastle Dental Hospital, calling upon a wide range of experiences, from extracting teeth to completing minor oral surgery procedures. He is currently completing his Diploma in Dental Implant surgery from the Royal College of surgeons.

He has qualified in conscious sedation and uses these techniques in general practice, creating a relaxed and comfortable environment. Nick is a member of the Society for the Advancement of Anesthesia in Dentistry (SAAD) and the Royal college of surgeons.

Lisa Davies. Dip HE/DHDT, GDC No 181814

Lisa qualified as a Dental hygienist/Therapist from the Royal London dental school in 2009, after working in the Army dental corps. She has a vast experience in treating periodontally compromised patients. She can maintain and educate patients during and after their treatment.

Nick and Lisa have worked together for over 8 years and have a good relationship.

She can provide routine or individual care for your patients
